SUPPORT TEAM for the
ATLANTIC ACTION PLAN

Socially Inclusive & Sustainable Development of the Atlantic Seaboard

We Atlantic

Improved action through inclusive maritime initiatives and education

Tell me and I might forget. Involve me, and I will learn.

Successful implementation of the Atlantic Action Plan will not happen on paper, it must take root within society, foster ownership and improve openness to maritime topics and challenges. Maritime education and ocean literacy, cultural events, sports and leisure activities are key entry points to get there and to achieve the goals of an inclusive Atlantic strategy.

We Atlantic is gathering various experts and good practices of maritime culture and nautical education for the Glasgow ASPC2017 event, in order to learn from each other's' experience and pursue the design of efficient mechanisms and strategies pushing further the emergence of inclusive Atlantic Actions. The workshop will specifically address actions involving young people and schools, cross-cutting vision of maritime vocational training, stronger maritime communication towards all publics, for example, through events linked to maritime heritage and culture, jobs and economy, environment and watersports.
